## WHO WE ARE

**We are location finder and consultants for corporate events, conferences, offsites and incentives.**

The „Corporate Resort Collection“ is our curated and tested collection of selected hotels and resorts in Germany and Europe. We offer 100 exceptional resorts for corporate events.

In addition, we are in contact with hundreds of other resorts and offer quick access to their prices, allotments and MICE facts. We also research and check every new or unknown location for our clients. Our claim: we find the right location for every event.

The Corporate Resort Collection is run by Christine and Ralf Bövingloh. Both have more than two decades of know-how in tourism, corporate events and MICE business. They manage the resort selection, contracting and consulting, together with their specialised team.

We support our clients with more than 20 years of experience, a Europe-wide network and DMC know-how in many regions. With the expertise from more than 150 accompanied MICE projects and countless location researches. And of course with personal and binding cooperation.

## HOW WE WORK

For us, locationfinding means working holistically and sustainably. We search on the basis of a careful and competent needs analysis, taking into account the goals, the group of participants, the spirit and the philosophy of the client.

If required and by arrangement, we reinforce the client's skills and capacities.

If desired, we plan and accompany the entire event. Usually, however, we act as invisible helpers in the background and support the responsible event departments and/or agencies.
